1. Highly breathable inner mesh fabric.
2. EN17092-3 certification as Protective Clothing.
3. Pockets with rubber-covered zippers for waterproof closures.
4. Left sleeve outer pocket for easy access to that main object/card/keychain.

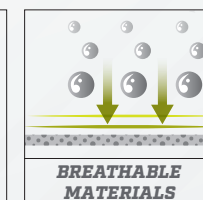

PRODUCT FEATURES

The 1UP4D Medusa is the brand's "all-rounder": a seriously versatile urban jacket, offered in a wider range of colour options, which actually makes it a casual, cool and hugely comfortable garment. It's made of a "touch-friendly" soft polyester, with highly reflective printed logos, adjustable sleeve zippers

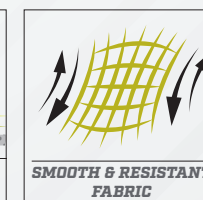

and straps, removable & washable hood and inner protections, and an interior breathable mesh, just right for the rider's milder days. Try one, and be sure to feel the wish to keep it. The available colours are a 'spot-on' match with the Medusa Gloves (please see gloves collection) for that final "complete kit" touch.

1. Full jacket interior made in a highly breathable inner mesh fabric, proven and tested for warmer days. A large practical pocket inside and sturdy zip closure pockets outside.

2. EN 17092-3 certification as Protective Clothing. Removable & washable protectors in elbows, shoulders and back areas.

PRODUCT FEATURES

The 1UP4D HYLAS is the brand's newest addition to our jackets range, a product with a focus on the Summer season and, overall, where the weather is milder and sunnier. The HYLAS arrives in a wide range of colour options, making it a casual and hugely comfortable garment. A smart mix of "touch-friendly" soft

polyester with highly ventilated mesh areas in the torso and arms, adjustable sleeve zippers and straps, removable & washable inner protections. A women's cut has also been carefully developed and comes available Carbon Black and in exclusive colourways of Black w/ Pink accents or a Power Pink version.

4. Upper arm adjustable straps with metal snap fasteners.

PRODUCT FEATURES

The Python: the brand's commitment to a comfortable fit but with the tightness of a high level of protection. The feeling of readiness is essential in every ride, and this jacket is just the right piece of gear to let that sensation wrap you. Plus, it comes packed with an array of technical features which will

make you think twice when considering similar products: a highly reflective rear band, coupled with luminous logos, adjustable sleeves and upper arm straps, YKK solid and efficient zippers and a pair of outside pockets to keep track of your everyday essentials. Check above for all the colour options available.

PRODUCT FEATURES

The ATHENA gloves are the brand's flagship product when it comes to protecting your hands. Made from a resistant but extremely soft leather, it's a water-proof glove, thermally insulated, ready to take to the road. Several layers of protection come into action, to which we've added extra padding on the upper

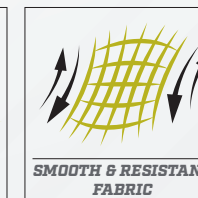

part of the fingers, dual velcro closure (ATHENA Long only) and an intricate mix of ergonomic support areas and high-grip textures on the gloves' palms. Keeping within the EN13594 certification standard, this sturdy glove is great for both your daily commute as well as the weekend tour. Week-long trip? Even better!

PRODUCT FEATURES

The PYTHON Sporty Road Boots inaugurate a sport-styled footwear at 1UP4D and were developed to create a highly comfortable and all-round motorcycling shoe. If your regular commuting is fairly long, but you prefer to go about your day without noticing what you are wearing this "super easy", everyday footwear is definitely a shoe you must consider. Constructed from a performance point of view, with a semi-rigid heel shield, the PYTHON Sporty Road Boots are also very lightweight, reinforced over the toes, on their outer sides and the all important cover around the ankles. A comfort layer is provided by the ergonomic inner sole and the lower rear cut just above the ankle favours an enhanced foot movement on the bikes mechanical parts. The precise dose of protection matched with your growing riding confidence.

*A champion of comfort for the road ahead
A carefully developed sporty shoe, with action gearing in mind, able to face every ride with high levels of protection. Its "low cut" rear profile and resistant pull strap improve wearing and manoeuvrability.*

BOOTS' HIGHLIGHTS

1

2

3

1. Double stitched protective gear shifter, made from resistant and durable material.
2. Top closure strip, preventing the shoe laces from coming undone.
3. High-grip rubber sole with proven traction on motorcycle pedals and slippery surfaces.

PRODUCT FEATURES

If you're going to do many miles, we know you like to be prepared. Versatility these days is a key factor, and the SPHINX full leather boots will be your companion whether it's cold, rain or sunshine, no matter if the trip is on a backcountry road or all the way in the "autoroute". Reinforced areas on the shin, ankle, heel and toe ensure maximum protection while a heavy duty Velcro, coupled with solid YKK zipper makes these the ideal footwear for uncompromised riding stints. This multi-layered shoe was designed with high levels of grip in mind too, and its resistant rubber sole is there to help you achieve comfort and stability, in a discreet sort of way, with a simple but highly reflective inserts to keep those lower areas visible.

BOOTS' HIGHLIGHTS

1. Heavy duty Velcro closure, paired with waterproof zipper and a leather flap for optimum fit.
2. Powerful reflective inserts on the rear area and heel covers.
3. High-grip rubber sole with proven traction on motorcycle pedals and slippery surfaces.

A STATEMENT OF CASUAL, UNDERSTATED LOOK!

Coolness rhymes with safety
Forget the casual and discreet design for a moment. The Medusa Boots' rubber sole is sturdy and grippy. Please check approximate dimensions (for a 43 European size boot) and range of available sizes.

BOOTS' HIGHLIGHTS

1. Reinforced protection on toes, heels and ankles
2. Ergonomically designed inner soft sole.
3. Reflective rear inserts on the heels, to provide increased visibility when riding.

PRODUCT FEATURES

If you could walk into your office, workshop, classroom or just about anywhere and hear someone praise you for your cool & casual boots, you could also say "Thanks! Do you know they're my bike riding shoes as well?!" This is what 1UP4D's latest Urban outfit looks and feels like. A comfortable and understated design, able to keep you geared up for your

city commuting but also totally at ease when you park your bike and have to walk all day long. The ideal bond between safety and fashion, with a grippy rubber sole, reinforced protections on both heels and toes and that carefully positioned back reflector that only the ones in the know will notice you're a true rider.

4. Carefully manufactured padding, highly comfortable, stiched and breathable.

PRODUCT FEATURES

At 1UP4D, the Medusa is a growing product line, in which we are also introducing an urban motorcycling helmet. Offering the all round practicality of an open-face model, here's a product thoroughly engineered to meet the newest and upcoming ECE 22.06 certification standards, making it the wisest

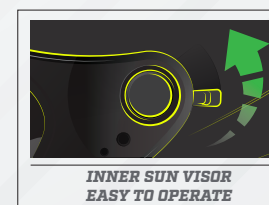

market choice for a safety regulation soon to become mandatory all across Europe. The Medusa comes equipped with an inner sun visor – controllable on the shell's left side – a longer and aerodynamic exterior visor, independent front side vents, rear air scoops and available in a wide range of head sizes.

HELMET HIGHLIGHTS

1. Active ventilation at the rear, through an ergonomical "slide button" design.
2. Sunpeak can be tilted and adjusted according to the users' preferences, or fully removed by operating the central screw as well as both side regulators.

PRODUCT FEATURES

It's fair to say that the Persis I is a helmet like no other. Its radical design hints at the riders' rebel spirits, the ones who definitely want to make a statement in originality. With the Persis I, you'll be wearing a product that stands out, if only through the carefully engineered details that make this model different from everything else out there. Available in the understated combinations of Matte

or Glossy Black, the range of use is, undoubtedly, quite vast. Opt between a clear or tinted visor - or none at all -, with or without the adjustable Sunpeak. Last but not least, mount or dismount the cool-looking chin bar, with its highly ventilated feature, morphing it between a fully enclosed helmet or a highly special jet configuration. The choice is yours!

3. Optional Sun Peak included on all models, fully compatible with the flip-up & flip-down movements of both the chin bar and the main visor.

PRODUCT FEATURES

The versatility of a Flip-Up helmet is unmatched. With such a protector, the freedom to exchange between the open face usability and the comfort and safety of a full face shield, is a given fact. Alongside the P/J Double Homologation, the product features include an integrated Sunvisor, an optional Sun Peak (which you can mount or dismount easily), on the side mechanisms and emergency "pull-on" straps on the lower areas of the chin bar. The SPHINX I is available in a wide array of options.

KRONOS

RACING JERSEYS & PANTS

KIT'S HIGHLIGHTS

Twin-buckle adjustable system on the waist, for an improved fit and comfortable ride.

Blank rear area allows for a full customization with name & number

PRODUCT FEATURES

It's no surprise that the way you ride is linked to how good you feel with your gear on! For this reason, 1UP4D has carefully developed its first range of Off-Road Jerseys and Pants. These come packed with a host of added comfort details and safety features, so that riding

comes as natural as breathing. A soft, breathable and highly elastic fabric on the Jersey is matched by truly technical pants: adjustable waist, heavy duty YKK zipper, Kevlar® reinforced inner pads over the knee areas and several zones with stretchable and resistant fabric.

PRODUCT FEATURES

For those with an absolute crave for minimal weight and smooth wearables, 1UP4D has developed a "one of a kind" racing glove, able to withstand the aggressiveness of the race while maximising breathability and high levels of grip. Once you kick-start you'll barely feel them on the

hands, yet the Nilus will be there for what you need: focus on the track and your commitment to that sought after jump, obstacle, mud pond or off-road path. Available in a wider array of trendy colour matches and all the sizes customary on our brand.

GLOVES' HIGHLIGHTS

1. Reinforced thumb layer for extra protection, with breathable holes.
2. Silicone printing on the gloves' palms and fingers for added grip.

KIP System
Additional protection over the metacarpal area and at the transition to the upper phalanges

Air vents midway along the fingers for improved breathability

High-strength Velcro fasteners with a durable and flexible rubber exterior

Palm of the glove made of soft fabric coated with high-friction silicone gel

Reinforced double layer on the thumb improves friction on the motorcycle grips

PRODUCT FEATURES

Take to the track! The new KRONOS Premium are meant to enhance all your riding skills, raising the craft from our original and best-seller KRONOS gloves. All the nicest features were kept in place, but for this product, we have carefully developed a system that is meant to reinforce the protection of the knuckles area (KIP - Knuckle Impact Protection). A resistant and comfortable padded piece brings confidence and

an extra shield over the hands, leaving the rider with nothing else but an utter and complete focus. And because the devil is still in the details, the soft fabric over all the four upper fingers now features small but carefully crafted air ventilations so that the hands breathe better. A high friction silicone gel is applied over the palms main areas, providing for an added grip that will guide you to the next level.

3

1. Reinforced thumb layer for extra protection when grabbing the grips, with breathable holes.
2. Silicone printing on the gloves' palms and fingers for added grip, coupled with a thinly padded foam layer for extra comfort.
3. Heavy duty velcro closure on the wrist for a tight fit, matched with a breathable upper fabric.

PRODUCT FEATURES

Focus on what really matters: the track ahead. Taking proper control of your motorbike is a key factor to boost your confidence, raising and performance to another level. The KRONOS riding gloves enhance all these skills through

an array of technical features, conceived to give you the best compromise between feel, grip and protection. These are available in all of the usual sizes, and can be matched to the KRONOS Jerseys & Pants colours.

KRONOS

OFF-ROAD RIDING BOOTS

Equipamento Protetor

CERTIFICAÇÃO

CERTIFIED

Protective Clothing

BOOTS' HIGHLIGHTS

1. Four-point closing buckles, highly adjustable, for an anatomical fit on your lower legs, ankles and feet.
2. Replaceable buckles, made from durable Nylon polymer, available as an after-market accessory.
3. Different rubber sole textures promote an optimized adherence to the motorbike's footpegs.
4. Heavy-duty velcro areas on the boots' upper part, featuring high-resistant rubber flaps.

PRODUCT FEATURES

Motocross & Enduro boots are one of the essential gear pieces to engage in our favourite sports. That's why 1UP4D has worked to develop a product with functionality, design and utter safety in mind: all of it presented at a competitive market price. On the Kronos boots, you'll find a carefully blended

mix of racing colours, which are sure to highlight your pants, jersey and gloves, and visually match your bike and helmet liveries. This new boot will allow for a greater range of movements while giving the rider the adequate levels of confidence and protection: flexion, resistance and performance, at your feet.

GOGGLES' HIGHLIGHTS

REVO Mirror & Ultra-clear ANTI-FOG lenses

Every unit of the NILUS off-road goggles includes both lenses, so that you can opt wisely according to every riding condition. They are easily interchangeable and both are equipped with tear-off pins. And if you ever need to replace them, after-sales official parts are available!

EVA "shock-proof" travel case

Also for every NILUS goggles, a dust proof premium EVA case is included, protecting your proud goggles of shocks, humidity and helping you to store all the gear just the right way.

PRODUCT FEATURES

The choice for the right off-road goggles is ever more demanding: so at 1UP4D we have been working to up our own game, bringing you a fully new model that will boost your performance to another level. We've kept the compliance with the latest safety standard CE EN 1938:2010, we've kept the REVO anti-scratch and anti-fog lens coating. And always a key point: the pre-installed tear-off posts. But we've improved our core design to a more modern and aerodynamic proposal, boasting an even wider peripheral

view and a superior level of comfort through the soft and breathable mix of isolating foams. The NILUS off-road goggles arrive in an array of four lively colour options, silicon coating on the main strap — for maximum grip on the helmet's shell — and a lighter weight flexible frame. And to top things up, they come packed in a carefully crafted EVA shock resistant travel case that's also humidity and dust proof, so that you can keep things stored just the way they should be.

GOGGLES' HIGHLIGHTS

Frame in high resistance & flexible polymer

Pre-installed tear-off posts

Wide lens with great peripheral view

Twin buckle for optimal strap adjustment

Silicon coating on the strap's inner side for maximum helmet grip

Third tear-off post on adjustable clip

REVO premium lens with scratch resistant & anti-fog coatings

Double foam layer for increased performance & tight sealing

PRODUCT FEATURES

The KRONOS goggles are your ideal companion to hit the tracks, at the best affordable price. In compliance with the CE EN 1938:2010 standards, its REVO anti-scratch and anti-fog lens coating are a key element to keep you focused, added by a wide peripheral view and a high comfort level ensured by its double

layer of foam: breathable but tightly sealed to your face. When placed over the helmet, you'll notice the super grip of the silicon coating on the inner side of the woven strap, and feel the flexibility and resistance of its polymer frame. Please check all the optional coloured lenses available.

NILUS
FULL CHEST GUARD

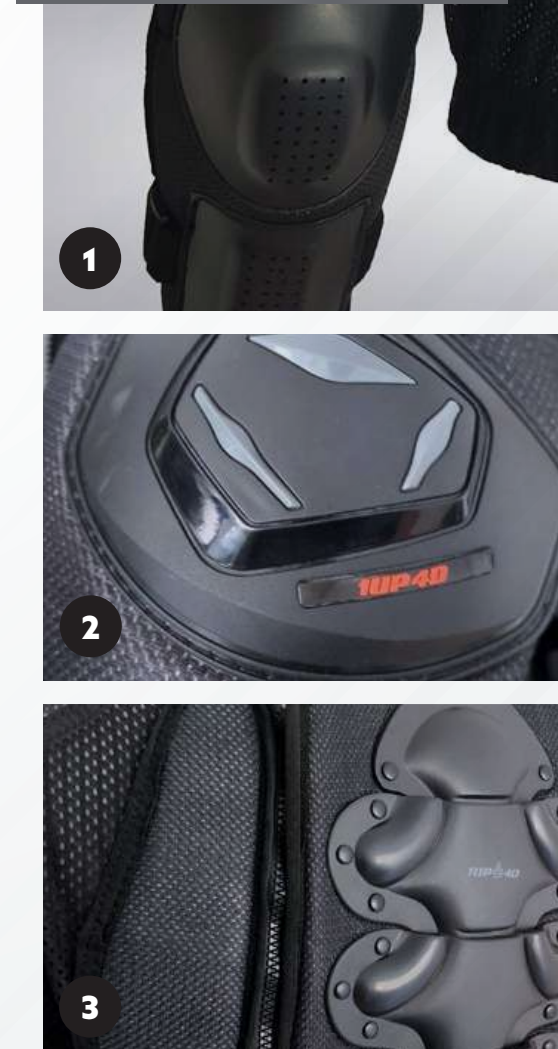

Unmatched versatility
Every unit of the NILUS Full Chest Guard includes the main and removable back protector, so that the rider can choose between a complete and articulated rear guard or the freedom of riding without it.

PRODUCT FEATURES

Teaming up with our previous launch, the KRONOS Chest Guard, we now bring you the NILUS Full Chest Guard. This resistant long sleeve jacket is equipped with a side 'heavy duty' zipper, leaving the central part of the chest safeguarded with an integral "one piece" shield. Knowing that this is the layout many riders prefer to wear, 1UP4D's range in this specific field is now bigger and suited to a large spectrum of offroaders. Besides, this tested and certified product (EU Standard EN 1621-1:2012 & EN 1621-2:2012) is highly versatile in its use, offering you to install or dismount a complete rear shield, articulated and included in every unit. The basis of this essential wearable is made from an open and flexible mesh for improved ventilation. The full torso protector is available in a cool combination of black with red highlights and a range of sizes from S to XXL.

FULL GUARD'S HIGHLIGHTS

1. Highly resistant polymer protectors on the elbows and forearms. **2.** Sturdy, ergonomic shoulder protectors, stitched onto soft padding for a comfortable and secure fit. **3.** Removable back protection included on all models, allowing the pilot the freedom to choose between a reinforced armour or a lighter vest.

KRONOS

OFF-ROAD BODY PROTECTIONS

KRONOS CHEST PROTECTOR

CHEST GUARD'S HIGHLIGHTS

1. Solid belt buckles make an efficient closure within the front plastic shield.
2. Heavy duty Velcro straps and resistant TPR rubber elements make for a perfect shoulder fit.
3. Removable rear shield is replaceable by an ultra-lightweight transparent backstrap, a favourite among many riders for its increased freedom of movements.

PRODUCT FEATURES

The KRONOS line welcomes that all-important protection for the rider's upper torso, an off-road chest protector, a must-have item among our enthusiastic off-riders. The air vents matching both the plastic shields and foam components allow for an effective air escape and the four straps adjustments - two over the shoulders, two above the waist make this shield a lightweight and comfortable piece to wear. Offered with an EN 14021-2003 Safety Standard, this vest is compatible with most neck braces: so whether you prefer to ride with it over or underneath your 1UP4D jersey, buckle up and seize the day!

KRONOS OFF-ROAD KNEEGUARD

Twin rotational pivots on the main shell, for improved ergonomics and an optimized freedom of movements.

KNEEGUARD'S HIGHLIGHTS

PRODUCT FEATURES

The full protection kit is matched by 1UP4D's off-road Knee Guards, with its multiple air intakes and carefully crafted paddings. These are easily removable and fully washable, with Velcro adjustable rear triple straps ensure a firm fit around the legs and a set of sturdy side clasps to make the guard a flexible but key companion. The Knee Guard is CE tested and certified as Impact Protection with EN 1621-1:2012 / Level 1.

YELLOW

ORANGE

GREEN

BLUE

FLUO

The list of colours above refers to the coat's wrists, neck and waist linings, the 1UP4D's printed logos and the fabric & mesh seen here on the torso sides and the lower areas of the arms.

PRODUCT FEATURES

The right raincoat makes the difference when that misty morning settles in. You're about to tackle that favourite track or mountain path, but you're unsure of the conditions you may be facing. 1UP4D's raincoat is a flexible and extra-lightweight polyester garment, available in a wide range of colours, featuring a heavy duty velcro and a solid YKK zipper, making it an efficient water repellent closure. Under your arms, a breathable mesh will help you cool your body temperature, which, combined with your KRONOS jersey will ease your ride and let you focus on what matters most: the "off-road" ahead.

KRONOS FULL CHEST GUARD

Feel the total protective feel of 1UP4D's KRONOS Full Chest Guard with its carefully developed mix of breathable fabrics and hard shells in all the right places.

BLACK RED FLUO

For those who prefer the full embrace of an integral protection, the 1UP4D's KRONOS Full Chest Guard is a highly ventilated long sleeve jacket, with a two-piece chest plate and heavy duty Velcro straps that offer optimal coverage without restricting movements. On the shoulders, elbows and all along the back area, you'll find high impact plastic shells able to withstand the challenges of even the most extreme riding conditions.

NYX BACKPACK

We all have our essentials, so it's a wise decision to choose the gear in which to pack them. 1UP4D's backpack has multiple adjustable straps and a central "chest buckle" for that utter feeling of confidence. Boasting waterproof zippers on all pockets & side mesh folders for bottles, it's also a versatile piece of gear, with a padded inner protection to carry your tablet or laptop.

NYX

OFF-ROAD ESSENTIALS

NYX HYDRATION PACK

The NYX Hydration Backpack comes equipped with a 2L flexible reservoir, with twin traps that lets you choose which shoulder to lock on the ergonomic water tube

Easy access pockets on the harness lets you quickly grab the phone and essentials. Several zippered pockets are perfect for bike tools or other gear and the reflective elements ensure low light visibility

PRODUCT FEATURES

Freedom of movement is a goal that every rider seeks to achieve, and especially so, when your focus has to be on the challenging off-road path that lies ahead. The NYX Hydration Pack is up for the task, with its vast array of pockets - big & small - in which you can use to store nutrition, phone, small tools and the all-essential hydration pack. Its comfortable padded side connects with your back, and you're able to adjust the straps in just about every dimension. Made of a specially resistant mesh to improve ventilation, its dual adjustment straps allow for an extensive range of fitments, a safe way improving your stability while you ride.

NYX WAIST PACK

Made from high-quality polyester fabric, the waist pack comes fitted with waterproof sturdy zippers, heavy-duty Velcro closures and a 650 ml water bottle, easily accessible via a separate pocket

WAIST PACK'S HIGHLIGHTS

PRODUCT FEATURES

We all have our essentials, that "must-bring" set of tools, patches and snacks we rely on: so it's a wise decision to choose the gear in which to pack them. 1UP4D's waist pack was designed for an ultra-ergonomic and lightweight fit, with its deeply padded and breathable mesh back side. Organize your tools in its multi-purpose main pouch, choose the inner pockets wisely and strap the keys and every small tool within the available elastic bands.

& MOTOCROSS

PRODUCT FEATURES

STRATON hand guards are one of 1UP4D's flagship products in our Off-Road range, an excellent addition to this year's new catalogue! They are specifically designed to deflect flying debris and small branches that you may encounter while riding. Feel that confidence boost before every ride with a range of technical features, such as upper airflow ventilations, efficient mounting options and

lightweight construction. A double-injection hand guard, more resistant to withstand adverse conditions on tracks and trails and sold with a complete mounting kit included (compatible with all major handlebars and mechanical parts). STRATON hand guards are available in a selection of really cool colours and are sure to be the icing on the cake, for your bike's ultimate look!

STRATON

TYRE MOUSSE NEW GEN

ENDURO

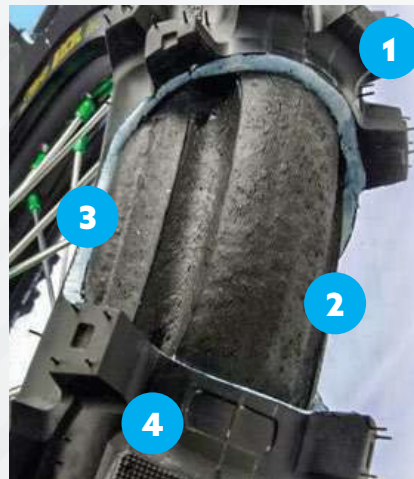

ENDURO SOFT

MOTOCROSS

ALSO AVAILABLE:
MOTOCROSS MOUSSES
for MINI BIKES!

1. Virtually eliminates punctures, preventing tyre degradation.
2. Multicellular foam that replaces traditional inner tubes.
3. Simulates air pressure up to approx. 13 psi.
4. Superior durability and resistance in extreme conditions and use.

PRODUCT FEATURES

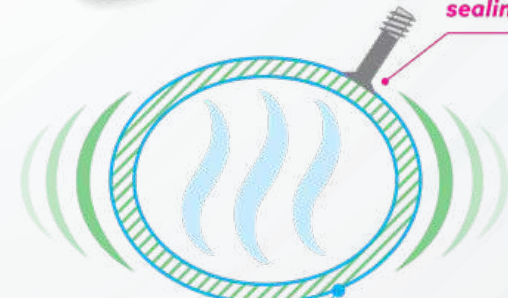

For every passionate rider, where there's a will there's a way! 1UP4D STRATON Off-Road Mousses have been tested and developed as high-performance solutions for off-road motorcycle tires. And they are being launched in a wide array of options, from Enduro and Enduro Soft to Motocross variants, never forgetting the all essential MX Mini-Bikes. While providing additional puncture resistance, they are also devised to improve your traction and comfort on extreme terrains. All in all, 1UP4D mousses eliminate the risk of punctures and ensure consistent performance in just about every soil condition.

STRATON TYRE TUBES

AVAILABLE:
3 and 4 MM
THICKNESSES

Reinforced TR6 valve,
which provides greater
durability and
sealing security

Robust
construction,
ideal for
intensive
off-road use

4 mm overall thickness,
ensuring greater resistance
against cuts & tears

Compatible with
18", 19" and 21" wheels,
covering most trail and
motocross wheels dimensions

PRODUCT FEATURES

Reinforced inner tubes with a thickness of 4 mm? Yes, at 1UP4D we have thought of that! Reinforced 4 mm inner tubes, such as those from the 1UP4D brand, are ideal for off-road riders looking for maximum resistance to punctures and tears. Thicker than conventional inner tubes, they offer durability and safety on demanding terrain. They are designed to withstand extreme conditions, such as trails with rocks, roots, mud and constant impacts. And they are especially recommended for enduro, motocross and trail bikes, where the integrity of the inner tube is crucial to avoid those frustrating unexpected stops!

PRODUCT FEATURES

A confident and decisive ride comes also with the precision with which you take control of the bike. Hence, the 1UP4D STRATON grips are made from a dual compound polymer, for utmost adherence and a highly durable usage. A shore of 25 SA in the central area provides a sticky and effective touch; a shore of 65 SA on the main compound ensures an easier fit on the handlebar and a sturdy resistance against possible crashes.

Its half-waffle design on the fingers' area is bound to give added grip, even on muddy conditions. Available in 11 colour combinations, the STRATON grips are sold in pairs of Left + Right handlebar ends, and are compatible with right hand twist throttle motorbikes.

STRATON BIKE STAND

Red / Black

Blue / Black

Full Black

Orange / Black

PRODUCT FEATURES

Whether you prefer your dirt-bike with a kick-stand or not, we know that a bike stand makes workshop and pit maintenance a much, much easier task! So, in comes the Straton stand, this year with revised features and some key improvements: on its raisable steel platform, the hard rubber twin mats are now riveted for extended durability. A half-ring locker bracket, chained to the main structure ensures extra-safety levels as the bike is loaded onto the upper H-plate. And to keep things static, flat bottom rubber feet provide increased stability while preventing the base platform from touching the ground and skidding.
